

# Devantol Magic

## Pre-spotting agent for pre-spraying or -brushing for textiles which are cleaned in perc

- Properties:**
- high soil-suspending and water binding capacity
  - excellent cleaning efficiency
  - non-irritating formula
  - especially mild to the skin
  - easy to rinse out

**Application:** **Devantol Magic** is applied pure or diluted with water in a ratio of 2:1 to 1:2 as pre-brushing agent.

**Devantol Magic** is ideal for pre-spraying as it does not contain any irritating components. Spray-on-solutions can be reached by dilution from 1:1 to 1:10.

For health reasons, when spraying with **Devantol Magic** an effective suction system at spotting tables is necessary.

**Technical Data:**

Density 20 °C (68 °F)	1.045 g/ml
pH-value	6.5 - 7.5

**Hints:**

Storage

**Devantol Magic** is not sensitive to frost, but storing the product for a longer period at temperatures below 0°C (32 °F) it becomes viscous and it can even solidify. It is fit for use again after thawing without any loss of quality (shake well before application). Keep container tightly closed.

The product can be stored for at least 24 months in its original sealed packing.
