

# Perfume Tropical

## Perfume for all solvents used in dry cleaning

---

- Properties:**
- clear, yellowish liquid
  - pleasant, fresh odour which sticks well on all kinds of fibres, masks and neutralizes unpleasant odours
  - provides the cleaning shop with a pleasant fragrance
  - usually miscible with all dry cleaning detergents and retexturing agents, liquid washing agents and softeners. If necessary, the compatibility should be tested.

**Application:** **Perfume Tropical** is added to the cleaning bath - or in case of several baths - to the last bath before drying.

Dosage

Approx. 0.5 ml **Perfume Tropical** per litre liquor (0.06 fl.oz/gal)

The quantity should not be more than 3 ml per kg textiles to be cleaned (0.46 fl.oz/10 lbs)

Covering unpleasant odours on cleaned textiles - caused by the solvent - with perfume can only be a temporary solution. The reason for the unpleasant odour should be found out quickly to eliminate the problem.

**Technical Data:**

Density 20 °C (68 °F)	1.02 g/ml
pH-value	7.0 - 8.5

**Hints:**

Storage

**Perfume Tropical** should be stored tightly closed, dry and not too warm.

The product can be stored for at least 12 months in its original sealed packing.
