

Lizerna Active Green

Alkaline detergent booster on an ecological basis

- PROPERTIES:**
- based on 100 % renewable active ingredients
 - outstanding fat and protein dissolving power
 - short application time
 - highly effective even at temperatures of 40 °C
 - phosphate-free
 - ideal in combination with Ozerna Bright Green or the entire Ozerna ECO System
 - excellent washing performance even with high water hardness
 - very good complexation of iron, manganese and copper
 - non-foaming
 - high dispersing capacity

APPLICATION: Lizerna Active Green is a non-foaming detergent booster that is perfectly formulated for the Ozerna ECO System. Thanks to its high content of substances for binding water hardness, Lizerna Active Green is also suitable for washing machines that work without softening systems. Lizerna Active Green is non-foaming, both at lower temperatures around 40°C and at high temperatures, and can therefore be used effectively in steam-heated washing machines or washing lines.

The high alkalinity leads to rapid grease saponification and corresponding removal of grease stains. The natural complexing agents used prevent catalytic damage caused by iron, copper or manganese ions during bleaching with Lizerna OX and ensure a high dispersing capacity, thereby preventing grey discoloration even with high dirt loads.

Lizerna Active Green is dosed with 2-4 ml/kg of laundry, depending on water hardness and extent of soiling.

TECHNICAL DATA:	Density [20°C]	1.24 g/ml
	pH value-Wert [conc.]	14

For commercial use only. This leaflet is for information purposes and is non-binding. The information is based on our current knowledge and experience. **DOSING
RECOMMENDATIONS:**
ml (g)/kg laundry

Water hardness*	Prewash	Main wash	Only main wash
0 – 6 soft	2 (2.5)	1 (1.2)	2 (2.5)
7 – 13 medium	2 (2.5)	2 (2.5)	2 (2.5)
> 14 hard	3 (3.7)	3 (3.7)	4 (5.0)

*You can find out the degree of hardness or water hardness in degrees of German hardness from your local waterworks.

NOTES:

Storage: Store in a dry place, protected from frost. The product is sensitive to frost and must not be stored at temperatures below 0 °C. Irreparable damage is possible. The container should be resealed after removing partial quantities. The product can be stored for at least 24 months in the sealed original container.

Due to the natural substances used, there may be a visible dark cloudiness in the lower part of the container. This cloudiness does not have any effect on the washing performance of the product.
